# Learn | Do | Inspire Activities

## Group or Team

### Learn

- Creates understanding and shape mindsets through interactive discovery and discussion.
- Enable individuals and groups to explore the “what and why” of core concepts.

### Do

- Drives action that demonstrates new mindsets and behaviors on-the-job.
- Creates the opportunity for personal reflection and feedback from others.
- Ensure that action also creates moments of learning and growth.

### Inspire

- Enables appreciation, encouragement, and story sharing.
- Amplifies the group experience helping everyone overcome their own obstacles, stay on the journey, and achieve more.

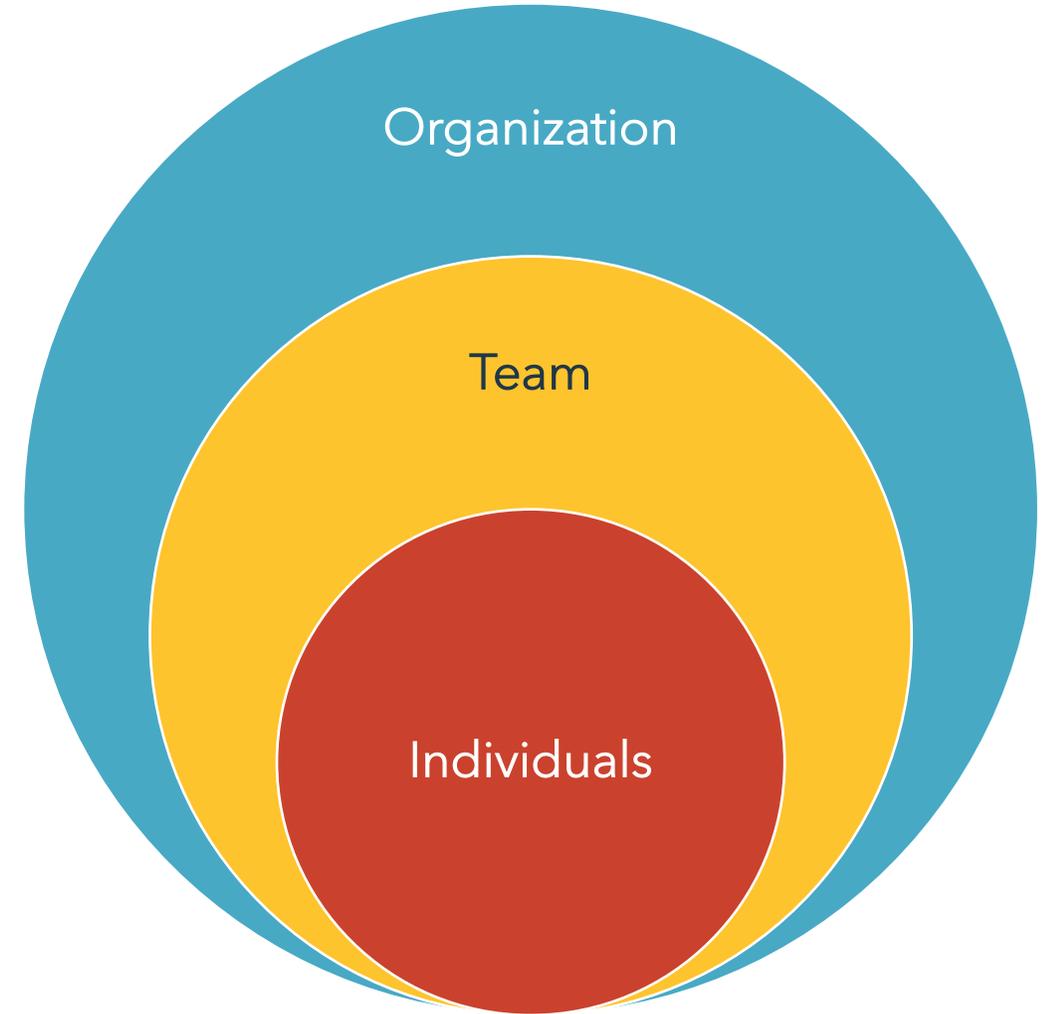

# Managers and Their Teams

Individual change is helped or hindered primarily in the context of the individual's immediate manager and team.

The strength of manager and team relationships, trust, sharing, accountability, and support affects any individual's ability to adopt a change.

Change amplifies existing team performance – good or bad!

Equipping managers and improving “team culture” acts as an accelerant for individual and organization initiative adoption.

# Becoming Central to Change

---

- Develop change journeys beyond courses.
- Develop leaders AND their teams.
- Build an employee-centered approach that includes people in the process of change.
- Create a “change map” for the company or business area you support.
- Start analysis with behaviors needed instead of content delivered.
- Become a “listening post” as change is being implemented.
- Create forums for facilitated dialogue.
- Provide a framework (4 capabilities or other) to guide and measure change performance.
- Use technology “beyond the LMS” to scale and support change.

# We Can Bend the Change Curve!

thanks.
